

# VSplus MEDIUM DUTY HAND CHAIN HOISTS

| Product code | Capacity (SWL)<br>kgs | Falls of load chain | Load chain<br>mm | Closed height<br>mm | Weight @ standard HOL<br>kgs |
|--------------|-----------------------|---------------------|------------------|---------------------|------------------------------|
| 04200102     | 500                   | 1                   | 6 x 18           | 320                 | 9                            |
| 04200103     | 1000                  | 1                   | 6 x 18           | 370                 | 11.2                         |
| 04200107     | 2000                  | 1                   | 8 x 24           | 450                 | 18                           |
| 04200104     | 2000                  | 2                   | 6 x 18           | 530                 | 15.3                         |
| 04200108     | 3000                  | 1                   | 10 x 30          | 530                 | 28                           |
| 04200105     | 3000                  | 2                   | 8 x 24           | 620                 | 24.7                         |
| 04200106     | 5000                  | 2                   | 10 x 30          | 620                 | 38.7                         |

| CHAIN CONTAINERS: - | Capacity | Falls                          | Chain length          | Product code |
|---------------------|----------|--------------------------------|-----------------------|--------------|
| 500 kgs             | 1/fall   | (Up to 12 mtr length of chain) | Product code 04109472 |              |
| 1000 kgs            | 1/fall   | (Up to 12 mtr length of chain) | Product code 04109473 |              |
| 2000 kgs            | 2/fall   | (Up to 6 mtr length of chain)  | Product code 04109473 |              |
| 2000 kgs            | 1/fall   | (Up to 12 mtr length of chain) | Product code 04109474 |              |
| 3000 kgs            | 2/fall   | (Up to 6 mtr length of chain)  | Product code 04109474 |              |
| 3000 kgs            | 1/fall   | (Up to 12 mtr length of chain) | Product code 04109475 |              |
| 5000 kgs            | 2/fall   | (Up to 6 mtr length of chain)  | Product code 04109475 |              |

The VSplus hand chain hoist is, through further technical developments, the successor to our proven VS model. We set new standards with the extremely robust all-steel construction and high quality bearings for drive pinion, load chain sheave and gearbox.

# CORROSION RESISTANT (STAINLESS STEEL CHAINS)

## Safelift 360° CR/SS - HAND CHAIN HOISTS

| Capacity (SWL)<br>kgs | Falls of load chain | Load chain<br>mm | Closed height<br>mm | Weight @ std. height<br>kgs |
|-----------------------|---------------------|------------------|---------------------|-----------------------------|
| 500                   | 1                   | 5 x 15           | 300                 | 9                           |
| 900                   | 1                   | 6 x 18           | 335                 | 13                          |
| 1250                  | 1                   | 8 x 24           | 395                 | 20                          |
| 2000                  | 1                   | 10 x 30          | 520                 | 29                          |
| 4000                  | 2                   | 10 x 30          | 654                 | 38                          |

## Safelift ITP CR/SS - HOIST / PUSH TROLLEY

| Capacity (SWL)<br>kgs | Falls of load chain | Load chain<br>mm | Closed height<br>mm | Beam width<br>mm | Weight @ std. height<br>kgs |
|-----------------------|---------------------|------------------|---------------------|------------------|-----------------------------|
| 500                   | 1                   | 5 x 15           | 300                 | 50 - 180         | 20                          |
| 900                   | 1                   | 6 x 18           | 335                 | 50 - 180         | 27                          |
| 1250                  | 1                   | 8 x 24           | 395                 | 58 - 180         | 44                          |
| 2000                  | 1                   | 10 x 30          | 520                 | 74 - 180         | 77                          |
| 4000                  | 2                   | 10 x 30          | 654                 | 98 - 180         | 125                         |

## Safelift ITG CR/SS - HOIST / GEAR TROLLEY

| Capacity (SWL)<br>kgs | Falls of load chain | Load chain<br>mm | Closed height<br>mm | Beam width<br>mm | Weight @ std. height<br>kgs |
|-----------------------|---------------------|------------------|---------------------|------------------|-----------------------------|
| 500                   | 1                   | 5 x 15           | 300                 | 50 - 180         | 24                          |
| 900                   | 1                   | 6 x 18           | 335                 | 50 - 180         | 32                          |
| 1250                  | 1                   | 8 x 24           | 395                 | 58 - 180         | 49                          |
| 2000                  | 1                   | 10 x 30          | 520                 | 74 - 180         | 82                          |
| 4000                  | 2                   | 10 x 30          | 654                 | 98 - 180         | 130                         |

The above units are all from the Safelift360° programme. The hoists/trolleys are fully corrosion resistant including the bottom hooks and are all fitted with stainless steel load and hand chain. Delivery times can vary. Please confirm with our sales team at time of order.
